Social Hub is a dynamic and engaging weekly program designed to provide participants with a platform to enhance their social skills in a fun and supportive environment. With a variety of stations catering to different interests, children can explore and enjoy various activities while interacting with their peers. The presence of our Social worker, and trained support workers ensures that play is guided towards promoting appropriate behaviour and fostering friendships. Through activities that emphasize good manners in different settings, such as using inside voices, displaying proper table etiquette, and demonstrating park etiquette, participants are encouraged to develop social awareness and cultivate positive relationships with others.

The first hour (4.30pm-5.30pm) includes:
