HOMESCHOOL SOCIAL HUB

Social Hub is a dynamic and engaging weekly program designed to provide participants with a platform to enhance their social skills in a fun and supportive environment. With a variety of stations catering to different interests, children can explore and enjoy various activities while interacting with their peers. The presence of our Social worker, and trained support workers ensures that play is guided towards promoting appropriate behaviour and fostering friendships. Through activities that emphasize good manners in different settings, such as using inside voices, displaying proper table etiquette, and demonstrating park etiquette, participants are encouraged to develop social awareness and cultivate positive relationships with others.

Homeschool Teens Socials

GC Therapy Hub Social groups offers a refreshing and innovative approach to social skill development for autistic teens, meticulously designed to merge fun with functional learning. At the heart of this initiative is a commitment to empowerment, with activities tailored to foster independence, confidence, and a stronger sense of community among participants. Guided by a dedicated Social Worker and a trained support worker, the program prioritises the interests and needs of its attendees, allowing them to lead the way in choosing activities that resonate with them. From movie nights and bowling to beach picnics and local market visits, each outing is more than just a leisure activity; it's a step toward mastering the art of social interaction in a supportive and understanding environment. By facilitating a space where teens can learn, grow, and enjoy, Teen GC Social is setting a new standard for disability support programs, where the joy of discovery goes hand in hand with personal development.
